

Name: _____

Your Maximum Budget: _____ Amount you would like to spend: _____

You may be reluctant to discuss your budget for a number of different reasons. For many it's a sensitive subject, however, we can only help you achieve your goals if we know how much you can afford to spend. There are many solutions available at various price points, and we can help you set priorities to achieve your dream bathroom.

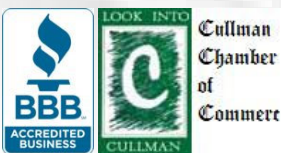

My top three reasons for remodeling the bathroom are:

- How long do you plan to live in the house? _____
- How many bathrooms are in your house? _____
- If this is your only bathroom, what do you plan on doing while your current one is unusable? _____
- Who will be using this bathroom? _____
- How many people use this bathroom at the same time? _____
- Would you like the toilet &/or bidet in a separate room of its own? _____
- Do you prefer separate showering & bathing areas? _____
- Would you like a tub that can hold more than 1 person? _____
- Would this room be used for other purposes? _____
(Dressing, Laundry, Make-up or Hair-care, Home Therapy aka Sauna, Spa, or Steam Shower)
- What appliances will you use in this bathroom? _____
(Hair Dryer or Rollers, Electric Shaver or Toothbrush, Towel Warmer, Radio, TV, Refrigerator)
- Where do you want to store your Towels, Toilet Paper, etc...? _____

Use & Special Considerations: Please create a list of every member of the family using this room which includes their name, age group, height, and special requirements / special use. An example is shown below.

Susan --- Adult --- 5'3 ---- needs several drawers for personal care items and makeup area
Mike --- Adult --- 6'4 --- higher shower spray height and electric shaver
Amy --- Child --- 2'4 --- built in step stool for a couple of years that can convert to drawers later?
Mike Jr. --- Teen --- 5'10 --- electric shaver and toothbrush

Material & Item Choices: On the next page is a list separated by major category items. Please Circle or Underline items you are or maybe interested in.
